

THE WORLD'S MOST INNOVATIVE AND PERSONAL GIFT FOR YOUR TEAM

We're **EYECONART**® and we specialise in creating stunning portraits of people's irises. We can do this for your team.

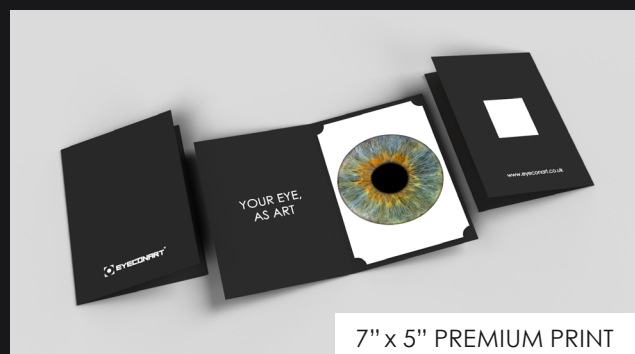

We tailor the service to your needs. Such as your office location, number of employees and social distancing rules.

HOW IT WORKS

One of our experienced photographers will come to your office to photograph your team's eyes using our patented **EYESTUDIO**® technology. It's a fun process which always gets people talking and they'll each learn something about what makes their own eye unique and beautiful.

Your team will each receive

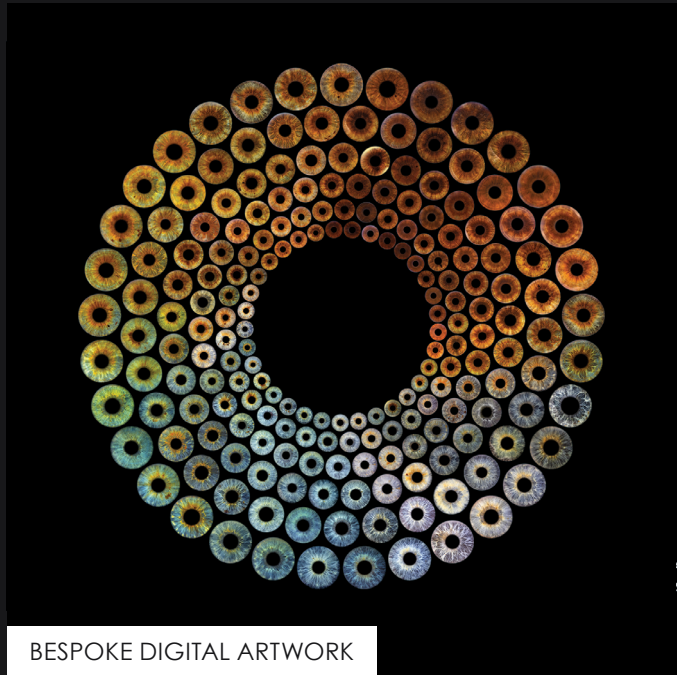

a 7" x 5" premium print on high quality photographic paper, with branded photo sleeve. Plus a high resolution digital version which they can enlarge or share online.

7" x 5" PREMIUM PRINT

Your company will get

a stunning bespoke piece of digital artwork made up from your team members' iris images. This can be printed large-scale as an eye-catching piece of art for your office wall, and shared digitally for printing at home, sharing on social media or even as part of the team's profile pictures and e-signatures!

PRICING

Basic Package	£695
+ per person	£35

*Prices are exc VAT & for 1 visit to a Central London location. For commissions outside of London or that require multiple trips by our crew, a supplement may be required.

“The idea worked like a dream... the buzz they created! I cannot recommend the EYECONART team enough for their professionalism.”
